Jovie Goat Feeding Chart

From the feeding guide printed on the Egyptian Jovie Goat tins · 400 g

Jovie Goat 1 · Infant Formula · 0–6 months

Scoop 4.3 g · 100 ml of milk is prepared using 13 g of powder

Baby's weight	Feeds per 24 h	Water per feed	Level scoops per feed	Daily total	Tins per month*
Under 3 kg	7	60 ml	2	420 ml water · 14 scoops	5 tins (400 g)
3–3.5 kg	6	90 ml	3	540 ml water · 18 scoops	6 tins (400 g)
3.5–4 kg	5	120 ml	4	600 ml water · 20 scoops	7 tins (400 g)
4–5 kg	5	150 ml	5	750 ml water · 25 scoops	9 tins (400 g)
Over 5 kg	5	180 ml	6	900 ml water · 30 scoops	10 tins (400 g)

Consult your health professional about introducing solid foods such as fruit and vegetable purees at approximately 4–6 months of age.

Jovie Goat 2 · Follow-on Formula · 6–12 months

Scoop 4.3 g · 100 ml of milk is prepared using 13 g of powder

Age	Feeds per 24 h	Water per feed	Level scoops per feed	Daily total	Tins per month*
6–8 months	4	150 ml	5	600 ml water · 20 scoops	7 tins (400 g)
8–10 months	3	180 ml	6	540 ml water · 18 scoops	6 tins (400 g)
10–12 months	2–3	210 ml	7	420–630 ml water · 14–21 scoops	5–7 tins (400 g)

Babies from 6 months onwards need about 500–600 ml of follow-on milk per day, either as a drink or added to cereals. This is only a guide; your baby may need more or less.

Jovie Goat 3 · Follow-on Formula for Toddlers · 1–3 years

Scoop 4.5 g · 100 ml of milk is prepared using 13.5 g of powder

Age	Feeds per 24 h	Water per feed	Level scoops per feed	Daily total	Tins per month*
12 months+	2	150 ml	5	300 ml water · 10 scoops	4 tins (400 g)

Babies from 6 months onwards need about 500–600 ml of follow-on milk per day, either as a drink or added to cereals. This is only a guide; your baby may need more or less.

*Unless prescribed differently by your health professional. Tins per month are calculated from the table on the tin (feeds × scoops × scoop weight × 30 days ÷ 400 g) and rounded up.

Preparation

From the feeding guide printed on the Egyptian Jovie Goat tins · 400 g

Prepare the milk immediately before feeding. Use only previously boiled or bottled water. Use only the scoop provided.

1. Wash your hands thoroughly and make sure the bottle and nipple are clean and sterilised.
2. First fill the bottle with the correct amount of water at approximately 40°C.
3. Add the indicated number of level scoops to the water.
4. Close the bottle and shake carefully until the powder is dissolved.
5. Test the temperature of the prepared feeding on the inside of your wrist before giving it to your baby.
6. Make sure the scoop is clean and dry before placing it back inside the tin. Close the tin using its plastic cap.

Always follow the preparation instructions. Discard unfinished milk after feeding and wash the bottle and nipple thoroughly. Use the prepared milk within 1 hour.

Important notice

The product should be used only after consulting a specialist doctor, when needed and in the appropriate manner for use. Always follow the preparation and storage instructions on the tin. Incorrect preparation and feeding can cause risks to your baby's health. Jovie Goat 1 can be used from birth till 6 months; Jovie Goat 2 and 3 should not be given to infants under 6 months of age.

Breast milk is the best for your child. Infant formula should be used on the advice of a healthcare professional.
